### Elements of Music (Western Music)

**Pulse** – The regular heartbeat of the music; its steady beat.

**Rhythm** – A combination of notes and rests; long and short sounds/silences or patterns that happen over the pulse.

**Pitch** – High and low sounds/notes.

**Tempo** – The speed of the music; fast, slow or somewhere in between.

**Dynamics** – How loud or quiet the music is.

**Timbre** – The character or colour of a particular instrument or sound. All instruments, including voices, have a certain sound quality, eg the trumpet has a very different sound quality to the violin.

**Texture** – Layers of sound in music. Layers of sound working together make music very interesting to listen to.

**Structure and Form** – The shape of a piece of music and how it's put together. Every piece of music has a structure, eg an introduction, verse, chorus and ending.

**Notation** – The link between sound and symbol; how we write music down.
